Up to the date of this announcement, the Company utilized the Proceeds in the sum of approximately HK\$21.33 million and the unutilized Proceeds amounted to approximately HK\$3.79 million.

CHANGE IN USE OF PROCEEDS

When the Group planned to set up production facilities for plastic parts in 2013, it was the Group's expectation at that time that the demand for the Group's products would increase in excess of its production capacity. But in the years that followed up to this date, the world economy has slowed down, and economic recovery remains sluggish. As the U.S. and European markets (which are the Group's principal markets) continue to slacken, the Group notes that the demand for its electronics products in the past three financial years of 2014, 2015 and 2016 has not exceeded its production capacity, rendering it unnecessary to set up additional production facilities. For each of the years ended 31 March 2014, 2015 and 2016, the Group's revenue amounted to approximately HK\$51.33 million, HK\$51.81 million and HK\$58.35 million. Although the Group's revenue for the year ended 31 March 2016 represented an increase of approximately 12.62% when compared with the revenue for the year ended 31 March 2015, the Group recorded a loss of approximately HK\$13.74 million for the year ended 31 March 2016 as compared with the loss of approximately HK\$12.63 million for the year ended 31 March 2015. In view of the Group's financial performance in the past three years of 2014, 2015 and 2016 and the relatively stabilizing market demand for the Group's electronics products, the Company's management does not anticipate any

substantial increase in purchase orders from its customers for the manufacture and trading of its electronics products and will not expect the demand for the Group's electronics products to exceed the Group's current level of productivity in the coming year(s). Therefore, the Board has decided to dispense with its plans for setting up production facilities for plastic parts and relocate the relevant funding to other uses.

In this respect, as the current lease of the existing factory building wherein the Group conducts its production is due to expire on 30 June 2017, the Group will relocate its production facilities and plants to a new factory premises with a lower monthly rental. The relocation of the Group's production facilities and plants to the new factory premises requires expenditure. Hence, the Group has reallocated the amount of HK\$1 million from "Setting up production facilities for plastic parts" and the amount of HK\$0.30 million from "Strengthening the Group's position in its established markets and expanding its customer base" to "Working capital and funding for other general corporate purposes", whereby an amount of HK\$0.8 million will be used for the relocation of the Group's production facilities and plants to the new factory premises, an amount of HK\$0.3 million will be used for the refurbishment of accommodation, and an amount of HK\$0.2 million will be used for rental for surface mounting technology facility.

The Company decided to change the intended use of unutilized Proceeds as follows:

New intended use	Original allocation of the unutilized Proceeds HK\$ million (approximately)	New allocation of the unutilized Proceeds HK\$ million (approximately)
Setting up production facilities for plastic parts	1.00	—
Strengthening the Group's position in its established markets and expanding its customer base	2.79	2.49
Working capital and funding for other general corporate purposes	—	1.30
Total	3.79	3.79

Having considered the impact of the proposed change in the use of the Proceeds on the Group's business, the Board is of the view that the new allocation of the unutilized Proceeds will meet the Group's business and operational needs more effectively in line with the Group's latest business development and recent market conditions for the electronics manufacturing and trading business. The Board believes that the above change to the

proposed use of the unutilized Proceeds will not have any material adverse effect on the existing business and operation of the Group and is in the best interests of the Company and its shareholders as a whole.
