MANAGEMENT DISCUSSION AND ANALYSIS

Business Review and Prospects

Revenue for the three months ended 30 June 2021 (“**Three-Month Period**”) was approximately HK\$18.07 million, representing an increase of approximately 46.41% when compared with the corresponding period in 2020. Loss attributable to owners of the Company for the Three-Month Period was approximately HK\$1.21 million whilst for the corresponding period in 2020, the loss attributable to owners of the Company was approximately HK\$0.25 million.

Given the slow pace of economic recovery along with the continued slackness in the U.S. and European markets, the sales of electronic products have become increasingly challenging. Notwithstanding the challenging market conditions during the Three-Month Period, the Group continues to provide electronics products and subcontracting services on PCB assemblies and manufacturing of electronic products to customers in its principal markets, i.e. the U.S.A. and the European countries including Belgium, Bulgaria, Germany, Poland, Russia, Slovakia, Spain and United Kingdom. The Group also operates catering business in Hong Kong.

In view of the challenging market conditions as mentioned above, while the Group will continue to focus on its core business of the sales of electronic products, it will explore new business opportunities with an aim of broadening its source of income and maximizing profit and return for the Group and the shareholders of the Company in the long run. The Group will also endeavour to increase its market share and attract new customers to enlarge its client base through conducting more promotional and marketing activities and designing and developing new electronic products.

Sales of Electronic Products

Revenue from this segment during the Three-Month Period was approximately HK\$11.20 million, representing an increase of approximately 16.47% when compared with the corresponding period in 2020. Increase in sales of electronics products was mainly due to the increase in manufacturing and trading of electronic products and accessories by approximately HK\$1.62 million respectively as compared with the corresponding period in 2020. Such increase was mainly due to the increase in sales of fishing indicator for the Three-Month Period by approximately HK\$1.92 million as compared with the corresponding period in 2020. Increase in the sales of fishing indicator was a result of increase in high end product sold, which mainly led to the increase in the revenue from manufacturing and trading of electronic products and accessories for the Three-Month Period.

Food Catering Services

Revenue from this segment during the Three-Month Period was approximately HK\$6.87 million, representing an increase of approximately 152.11% when compared with the corresponding period in 2020.

Financial review

The Group's revenue for the Three-Month Period was approximately HK\$18.07 million, representing an increase of approximately 46.41% from approximately HK\$12.34 million of the corresponding period in 2020. Such increase was mainly due to the increase in revenue from restaurant operations by approximately HK\$4.15 million.

The overall gross profit margin of the Group decreased from approximately 31.81% for the three months ended 30 June 2020 to 10.47% for the three months ended 30 June 2021. The decrease in the Group's gross profit margin for the three months ended 30 June 2021 was primarily due to the decrease of sales in the higher margin dishes of the Group's food catering business, namely abalone and shark fin.

Administrative and other expenses for the Three-Month Period were approximately HK\$6.55 million (approximately HK\$4.54 million for the three months ended 30 June 2020), representing an increase of approximately 44.21%. Such increase was mainly due to the increase in the professional fee by approximately HK\$1.24 million.

Loss attributable to the owners of the Company for the Three-Month Period amounted to approximately HK\$1.21 million (approximately HK\$0.25 million for the three months ended 30 June 2020). Loss per share attributable to owners of the Company was approximately HK1.06 cents for the Three-Month Period (approximately HK0.49 cents (restated) for the three months ended 30 June 2020).
